To Whom It May Concern:

I am writing to enthusiastically recommend Trevor Ritchie for any future internship, academic, full-time, or other professional opportunities that may come his way.

He recently completed the first-ever professional development program, Rev Up SC, which ran from May - November 2023. Designed to replicate a business-world environment, Rev Up SC provided participants with the critical professional skills necessary to bridge the gap between college and career, helping them become competitive in the job market, and build relationships with key employer partners and influential individuals.

Rev Up SC was created for the South Carolina Association of Colleges and Employers (SCACE) by The Rez Rev, LLC and funded by the South Carolina Department of Commerce's Relentless Challenge Grant and several key employer sponsors, including BMW Plant Spartanburg, Milliken, BlueCross and BlueShield of South Carolina, and Fastenal.

It is with great pleasure that I provide this letter of recommendation for Trevor on behalf of the SCACE Board.

Throughout the duration of the Rev Up SC program, Trevor consistently demonstrated a strong commitment to personal and professional growth. He actively engaged with the program's curriculum, displaying an eagerness to learn and a genuine passion for the subject matter.

Trevor exhibited a high level of intellectual curiosity, regularly seeking additional resources and going above and beyond the program requirements. He has not only demonstrated a commitment to personal and professional growth but also exhibited the qualities of a driven, adaptable, and collaborative individual. I am confident that Trevor will continue to excel and make valuable contributions in any endeavor he chooses to pursue.

If you require any further information or have additional questions, please do not hesitate to contact me or our program instructors at revupsc2023@gmail.com or 803-221-8229.

Thank you for considering my recommendation on behalf of the SCACE Board.

Sincerely,

Heather Turner
